Design: Construction

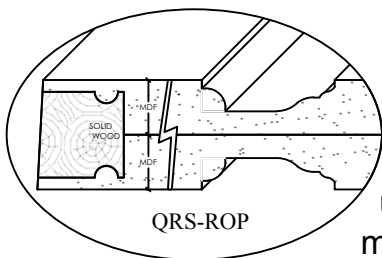

Solid Wood

-Natural, solid product,
Variety of wood species
and grain patterns available.
Authentic and unique appearance.

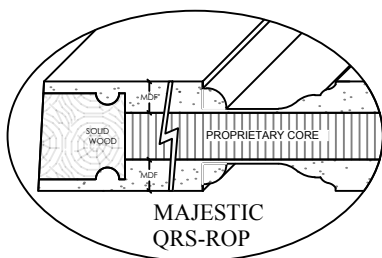

S.C.L. (Structural Composite Lumber)

-Dimensionally and
structurally uniform.
Ideally suited for exotic
woods and door heights over 96".

M.D.F.

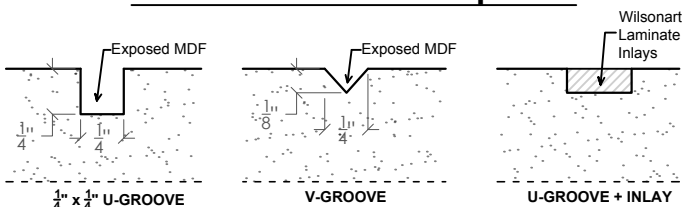

Seamless door,
-dimensionally
uniform re-engineered
material.

Majestic M.D.F.

-all the characteristics
of traditional MDF but
in a lighter weight.

MDF Groove Series Options

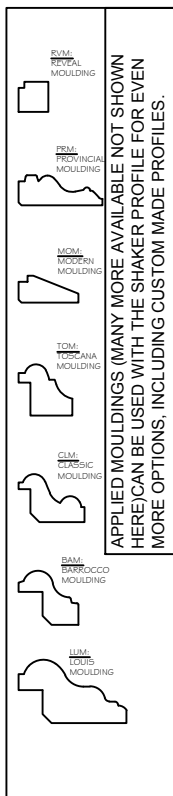

Custom Groove specs are possible

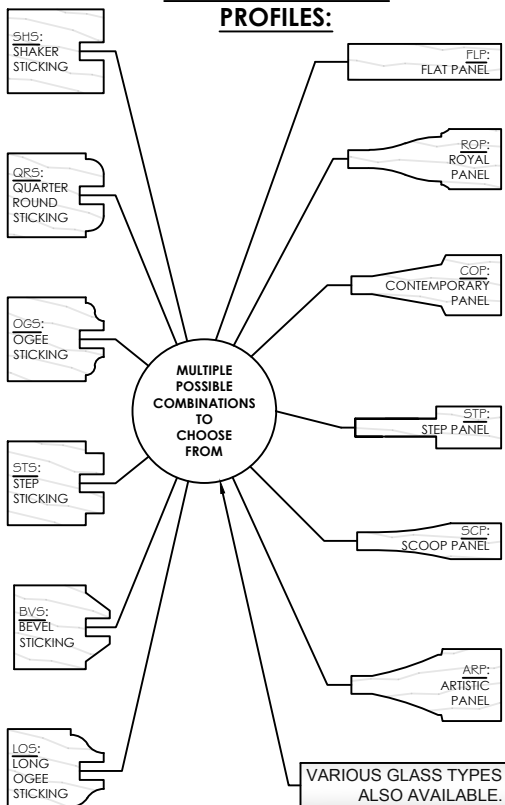

Design: Profile Types

Door Thickness:
Standard sizes are
2-1/4", 1-3/4" or 1-3/8".

DOOR AND PANEL PROFILES:

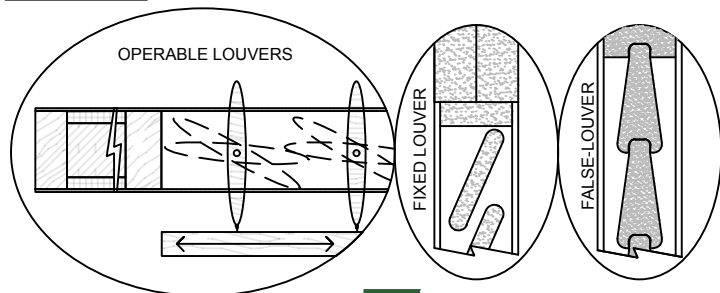

Door Sticking & Moulding Types:

Many combinations are possible including custom made profiles to match existing wood work or an entirely new shape of your own.

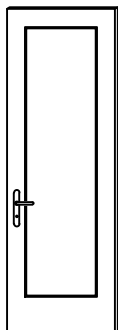

Note:

Not all panels or profiles available in certain construction.

Selection:

Prefabricated doors are formed from re-engineered wood products.
They are only available in the styles shown, and only in predetermined door sizing.

Size Range (Availability Varies with door style + construction type):

12,14,15,16,18,20,24,26,28,30,32,34,36 inch widths. 80",84", 96" heights. 1-3/8" or 1-3/4" thickness. All with a Smooth, or limited selection of Textured(embossed wood grain) surface.

Fire ratings of 20,45 and 60 minute available for some models of 1-3/4" doors. Emerald series of doors made from environmentally friendly rapidly renewable resources.

Five different door construction types are available depending on door style as listed.

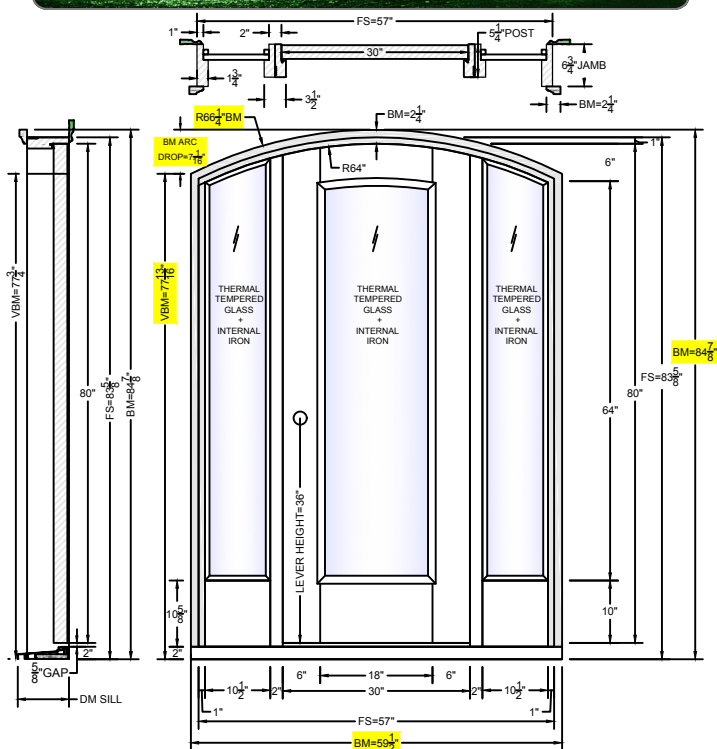

"Safe 'N Sound" (S&S): (Solid Core, Sound Reducing, Flush, Smooth or Textured).

Emerald: (Eco friendly materials, Hollow Core, 1-3/8"thick only) optional:S&S version.
Palazzo: (Smooth,High detail, Distinct raised moulding and panel profile, Reinforced Core).

Anniversary: (Smooth with Stile&Rail visible door lines) optional:S&S/Emerald versions.

Moulded: (Smooth or Textured, Flush ,Hollow Core) optional:S&S/Emerald versions.

Design: Dimensions

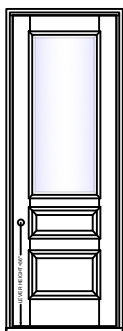

Custom Door Design:

Create a custom entrance built to reflect your style and fit to your specific needs, there are virtually no limits to what can be accomplished. Our custom doors can be retrofitted to an existing opening, or designed specifically before new construction begins.

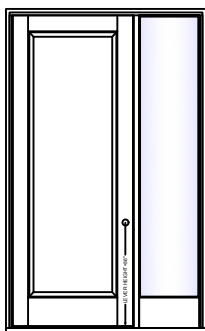

Key Dimensions:

Knowing the exact Brick to Brick, Frame Size, or Rough Opening on site is the critical information needed to determine door & frame sizing. We can design your new entrance based on existing Architectural or Masonry drawings. Otherwise we can arrange a site visit with one of our sales representatives to verify dimensions. We then use CAD Engineering to design the perfect door for you to review ahead of time. To see the range of doors available make a visit to our showroom. There's no limit to the possible combinations of door types, frames, wood species, stain colour, glass and trim to explore.

Free Quoting

We offer free quoting for both commercial and residential projects. This includes doors, mouldings, and decorative hardware.

Quote - Timing

-Standard quotes are typically completed within 24 hours from submission.

-Custom quotes are typically completed within 48 hours from submission. (Additional time may be required for custom orders).

Quoting - Information

Call your Doorland representative for quotes by Phone at: **905.850.5190** or Toll Free at:

1.800.265.0379. Quoting sheets for doors are available online at www.doorlandgroup.com

Delivery

Delivery from door-to-door. No matter where you are in the world, Doorland will ensure delivery to your front door for both residential and commercial projects. Our shipping and quality department will arrange to have customs, brokerage and freight documentation completed to ensure a smooth, safe and on-time delivery. Doorland implements specified area drop-offs to ensure quality and safe material handling.
